Product Terms (C1)
eBook Collections

1. Term and Access Rights

1.1 The Term shall begin on January 01, 2023 (the "Commencement Date") and shall end on December 31, 2023.

1.2 After expiration of the Term, Licensee shall have Continuing Access to the eBook Collections indicated in Section 3.1, subject to all terms and conditions of this License Agreement.

2. Estimated Titles

The License Fee is based on the inclusion of the Estimated Number of Titles (as referenced in the table in Section 3.1) in the licensed eBook Collections. If the total number of eBooks, excluding Open Access books, in the eBook Collections licensed under these Product Terms is less than 97% of the estimated number of titles for all licensed eBook Collections (an "under-delivery"), Licensor shall, at Licensee's request, offer Licensee a credit toward either (a) current access to an additional online product, or (b) future acquisition of an eBook Collection or any other online product, in an amount equal to 1% of the License Fee for each full percentage point that the actual number of titles is below 97% of the estimated number of titles for all licensed eBook Collections. Title lists may be accessed through https://adminportal.springernature.com/metadata/books. The Parties agree that the reference date for the calculation of the actual total number of titles shall be on or about March 1st of the following year ("the Reference Date"). To obtain a remedy under this Section, Licensee must provide Licensor written notice of any under-delivery along with Licensee's requested remedy within 12 months of the Reference Date. Major new title list acquisitions during the Term are not included in the license grant under these Product Terms.

**The Estimated Number of Titles and the associated remedies for any under-delivery as referenced in Section 2 above, only apply to the current eBook Collections Copyright Year.

3.2 For eBooks in the Collections above, Licensee may engage in the activities described in Section 2.1.3 of the General Terms and Conditions with full eBooks as well as chapters of eBooks, provided that it is in compliance with all other conditions of that clause.

About Shodhganga, INFLIBNET Centre
Shodhganga: a reservoir of Indian Theses
Theses and dissertations are known to be the rich and unique source of information, often the only source of research work that does not find its way into various publication channels. Theses and dissertations remain an un-tapped and under-utilized asset, leading to unnecessary duplication and repetition that, in effect, is the anti-theses of research and wastage of huge resources, both human and financial.
The UGC Notification (Minimum Standards & Procedure for Award of M.Phil. / Ph.D Degree, Regulation, 2009 Amendment made on 2016) dated 5th May 2016 mandates submission of electronic version of theses and dissertations by the researchers in universities with an aim to facilitate open access to Indian theses and dissertations to the academic community world-wide. Online availability of electronic theses through centrally-maintained digital repositories, not only ensure easy access and archiving of Indian doctoral theses but will also help in raising the standard and quality of research. This would overcome serious problem of duplication of research and poor quality resulting from the "poor visibility" and the "unseen" factor in research output. As per the Regulation, the responsibility of hosting, maintaining and making the digital repository of Indian Electronic Theses and Dissertation (called "Shodhganga"), accessible to all institutions and universities, is assigned to the INFLIBNET Centre.
"Shodhganga" is the name coined to denote digital repository of Indian Electronic Theses and Dissertations set-up by the INFLIBNET Centre. The word "Shodh" originates from Sanskrit and stands for research and discovery. The "Ganga" is the holiest, largest and longest of all rivers in Indian subcontinent. The Ganga is the symbol of India's age-long culture and civilisation, everchanging, ever-flowing, ever-loved and revered by its people, and has held India's heart captive and drawn uncounted millions to her banks since the dawn of history. Shodhganga stands for the reservoir of Indian intellectual output stored in a repository hosted and maintained by the INFLIBNET Centre.
The Shodhganga@INFLIBNET is set-up using an open source digital repository software called DSpace developed by MIT (Massachusetts Institute of Technology) in partnership between Hewlett- Packard (HP). The DSpace uses internationally recognized protocols and interoperability standards. Shodhganga provides a platform for research scholars to deposit their Ph.D. theses and make it available to the entire scholarly community in open access. Why Should Universities Join Shodhganga, INFLIBNET Centre ?

Shodhganga: a reservoir of Indian Theses

The UGC vide its Notification (Minimum Standards & Procedure for Award of .Phil. / Ph.D Degree, Regulation, 2016) dated 5th May 2016 (Appendix-I) provides mandate for submission of electronic version of theses and dissertation by the researchers in universities into Shodhganga maintained by the INFLIBNET Centre.

In accordance with the provisions of UGC Regulations, 2016, clause no. 13.2, the degree-awarding Institution shall issue a provisional Certificate to the effect that the Degree has been awarded. Further, as per clause no. 13.1, the Institution concerned shall submit an electronic copy of the Ph. D. thesis to the INFLIBNET, for hosting the same so as to make it accessible to all Institutions/Colleges. This has to be followed in letter and spirit of UGC Notification.

Universities that sign MoU with the INFLIBNET Centre and mandate submission of electronic version of their theses and dissertation to Shodhganga may get financial assistance from the UGC for digitizing their back-files of theses.

In time to come, ETDs would become more commonplace, grant-giving agencies and accreditation bodies like AICTE, UGC,MHRD and NAAC would make judgments regarding innovative universities by taking note of their initiatives such as ETDs and IRs.

Further more, Plagiarism is a major concern in the area of research which results in the poor quality of research. Proper software tools are now available to detect and deter plagiarism. The increased visibility of theses and dissertations through open access repositories would further act as a deterrent to plagiarism. Moreover, it will attract other organisations in India and abroad to collaborate with Indian universities on topics of mutual interests. Besides, availability of formidable number of theses through a single repository would facilitate the INFLIBNET Centre to launch alerting and analytical services deploying data mining and other technology tools.

About Shodhganga, INFLIBNET Centre
Shodhganga: a reservoir of Indian Theses
Theses and dissertations are known to be the rich and unique source of information, often the only source of research work that does not find its way into various publication channels. Theses and dissertations remain an un-tapped and under-utilized asset, leading to unnecessary duplication and repetition that, in effect, is the anti-theses of research and wastage of huge resources, both human and financial.
The UGC Notification (Minimum Standards & Procedure for Award of M.Phil. / Ph.D Degree, Regulation, 2009 Amendment made on 2016) dated 5th May 2016 mandates submission of electronic version of theses and dissertations by the researchers in universities with an aim to facilitate open access to Indian theses and dissertations to the academic community world-wide. Online availability of electronic theses through centrally-maintained digital repositories, not only ensure easy access and archiving of Indian doctoral theses but will also help in raising the standard and quality of research. This would overcome serious problem of duplication of research and poor quality resulting from the "poor visibility" and the "unseen" factor in research output. As per the Regulation, the responsibility of hosting, maintaining and making the digital repository of Indian Electronic Theses and Dissertation (called "Shodhganga"), accessible to all institutions and universities, is assigned to the INFLIBNET Centre.
"Shodhganga" is the name coined to denote digital repository of Indian Electronic Theses and Dissertations set-up by the INFLIBNET Centre. The word "Shodh" originates from Sanskrit and stands for research and discovery. The "Ganga" is the holiest, largest and longest of all rivers in Indian subcontinent. The Ganga is the symbol of India's age-long culture and civilisation, everchanging, ever-flowing, ever-loved and revered by its people, and has held India's heart captive and drawn uncounted millions to her banks since the dawn of history. Shodhganga stands for the reservoir of Indian intellectual output stored in a repository hosted and maintained by the INFLIBNET Centre.
The Shodhganga@INFLIBNET is set-up using an open source digital repository software called DSpace developed by MIT (Massachusetts Institute of Technology) in partnership between Hewlett- Packard (HP). The DSpace uses internationally recognized protocols and interoperability standards. Shodhganga provides a platform for research scholars to deposit their Ph.D. theses and make it available to the entire scholarly community in open access. Why Should Universities Join Shodhganga, INFLIBNET Centre ?

Shodhganga: a reservoir of Indian Theses

The UGC vide its Notification (Minimum Standards & Procedure for Award of .Phil. / Ph.D Degree, Regulation, 2016) dated 5th May 2016 (Appendix-I) provides mandate for submission of electronic version of theses and dissertation by the researchers in universities into Shodhganga maintained by the INFLIBNET Centre.

In accordance with the provisions of UGC Regulations, 2016, clause no. 13.2, the degree-awarding Institution shall issue a provisional Certificate to the effect that the Degree has been awarded. Further, as per clause no. 13.1, the Institution concerned shall submit an electronic copy of the Ph. D. thesis to the INFLIBNET, for hosting the same so as to make it accessible to all Institutions/Colleges. This has to be followed in letter and spirit of UGC Notification.

Universities that sign MoU with the INFLIBNET Centre and mandate submission of electronic version of their theses and dissertation to Shodhganga may get financial assistance from the UGC for digitizing their back-files of theses.

In time to come, ETDs would become more commonplace, grant-giving agencies and accreditation bodies like AICTE, UGC,MHRD and NAAC would make judgments regarding innovative universities by taking note of their initiatives such as ETDs and IRs.

Further more, Plagiarism is a major concern in the area of research which results in the poor quality of research. Proper software tools are now available to detect and deter plagiarism. The increased visibility of theses and dissertations through open access repositories would further act as a deterrent to plagiarism. Moreover, it will attract other organisations in India and abroad to collaborate with Indian universities on topics of mutual interests. Besides, availability of formidable number of theses through a single repository would facilitate the INFLIBNET Centre to launch alerting and analytical services deploying data mining and other technology tools.
